Live or Webinar, you pick, (unless the State says ZOOM only)

We are planning both, but hoping that the dust settles and we can also meet live.

We are excited to announce this year's keynote speaker, Joe Jordan. Mr. Jordan is an inspirational speaker and behavior finance expert, and the author of *Living a Life of Significance*. The book sold 100,000 copies, translated into five languages, and was featured in Nick Murray's "The Advisor's Essential Library." Formerly, Mr. Jordan ran insurance sales at Paine Webber and more recently was a senior vice president at MetLife. He is a founder of the Insured Retirement Institute and has been featured on the cover of *Life Insurance Selling Magazine*.

We are lining up 4-5 additional speakers for a very productive day! There will be many exhibits featuring local and National businesses with state-of-the-art products to help enhance your business!
